

Schmitz Cargobull booth – IAA 2007

Production of 40 CENO Style TCS 200 ceiling frames and creation of a representative entrance. The frame and the entrance were executed in the proven light frame construction. Thanks to the exchangeable fabrics, frames and entrance can be printed according to individual optical desires making it possible to use them for further exhibitions and trade fairs. Last time the booth was installed was in Birmingham in March 2007 on the occasion of a motor show.
