

## Wincor Nixdorf - presentation area ECR-day 2006

The 7th ECR-day was the scene of an event with respect to trans-business processes. For this purpose, Wincor Nixdorf GmbH's presentation area was effectively made the centre of attention by use of an 18 m long freeform. The material used was a double-layer CENO-Style Ultra Stretch in the Wincor own red colour. In order to ensure the opaqueness of the material, a CENO-Style stage molleton was incorporated between the layers.

### Project data

Project description	ECR-Tag 2006, Munich
Principal /client	Wincor Nixdorf GmbH, Paderborn
Architect	Kranz InnenArchitekten
Constructional-/ steel work- and membrane planning	Ceno Membrane Technology
Description	18 m bent fabric banner
Material	CENO Style Ultra Stretch CENO Style Stage molleton
